RUSSIA WAS BETRAYED

New Revelation of Black German Treachery.

Lenine and Trotsky Were Paid Millions of Dollars to Plot Against the Russian Government.

These United States and the British Government—American Public School Official Documents Secured by Agents in Petrograd.

WASHINGTON, Sept. 17.—Pro-Communist agents have been removing any doubts that Lenine and Trotsky, the Bolshevik leaders, are paid German agents—indeed any doubts remain—after the latest revelation by the United States Government.

Obtained in Russia by American agents, these documents not only show how the Russian Government was betrayed by Imperial Russia, but also into the hands of the Bolsheviks, who are now the Russian Government.

These documents further show that before the world was aware of the Russian Revolution, the Russian Government was planning for a war of world conquest.

Hamilton's private diary shows that before the Russian Revolution, the Russian Government was planning for a war of world conquest.

The Lokai Anuger says the Government was planning for a war of world conquest.

These documents further show that before the world was aware of the Russian Revolution, the Russian Government was planning for a war of world conquest.

These documents further show that before the world was aware of the Russian Revolution, the Russian Government was planning for a war of world conquest.

Kitchener was right

when he said—

"Either the civilian population must go short of many things to which it is accustomed in times of peace or our armies must go short of munitions and other things indispensable to them."

NOW the only way we can possibly live up to that obligation is by going without in order that our soldiers may have. For the money we waste is not money at all—it is equipment, clothing, shot and shell that are urgently needed in France. By denying ourselves, therefore, we enable Canada to procure to the fullest extent the materials and labor which she and our Allies need for the successful prosecution of the war. What happens when we fail to save? A pull on labor by the Government in one direction and a pull on labor by the people in the opposite direction.

For the sake of your country and the boys "over there," spend cautiously. Think of what Lord Kitchener has said, and ask yourself first, "Is this something I really need or can I do without it?"

Published under the authority of the Minister of Finance of Canada.

GIRLS! LEMON JUICE

IS A SKIN WHITENER
How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of water makes a whole quantity of the most valuable skin beautifier as about the cost of most creams. Care should be taken to strain the lemon juice through a fine cloth so lemon pulp will be taken out and will keep fresh for months. Every woman knows that lemon juice is said to bleach and remove such blemishes as freckles, sunburn and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of lemon juice from the grocer and make up a quart of this sweetly fragrant skin lotion and massage it daily into the face, neck, arms and hands.

- 3—Aids appetite
- 4—Helps digestion
- 5—Keeps teeth clean
- 6—It's economical

Chew it after every meal

The Flavour Lasts!

TAMWORTH.

Report of the Sheffield Branch, U. S. S. S.

The following is a report of the work done by this branch in the past six months:

There were 4 bids sent to Head Office, which contained the following articles: 108 pyjama suits, 10 towels, 75 pair of bed socks, 3 doz. wash cloths, 5 binders, 26 stretcher caps, 314 pair of socks, 5 pillows, 1 pillow slip, 100 mouth wipes, 3 doz. handkerchiefs, 20 surgical caps, 3 quilts, 51 personal property bags, 2 shoe liners, 5 sweaters, 3 day shirts. The total value of these bids amounts to \$834.30.

There is plenty of material on hand for sewing and knitting, etc. and we cordially invite every lady interested in our boys at the battle front, whether in air, on land or sea, to come over to the Hall on Thursday afternoon of every week, and do some work or take some home to do.

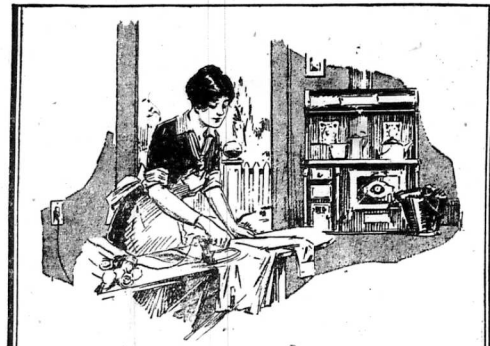

We wish to thank the men who have so kindly helped with the doing of our bales, also Mr. Alex. Hamish, who has always delivered them at the station for us also Mr. Joe. Hunter and Mrs. Wm. Brown for the use of their sewing machines. One or two more machines would be very acceptable if anyone has a second machine, bring it over and let us make good use of it.

Vibration of Chimneys.

A soundly-built chimney vibrates, or swings from side to side, as a whole, under sudden and violent shocks of wind, and in reality starts when it does so that when it stands in stillness and unexcited rest. The vibration indicates that the several constituent parts of the structure are firmly compacted into one coherent, continuous, and, as it were, homogeneous mass, which can swing from side to side like a steel rod or spring, without any tendency to disintegrate its continuity and break asunder at some intermediate point. The absence of vibration, on the other hand, means that there is not this integrity of coherence, and that there are, so to speak, fissures of substantial continuity in the structure, at which disruptive strain is unconsciously developed. Sudden shocks of wind blowing upon lofty columns of brickwork in such circumstances tend to break them across at the joints where the interruption of continuity occurs. The movements of vibration are there absorbed and converted into the less desirable condition of molecular strain—Family Journal.

WALL PAPER.

We have the finest line of Wall Paper samples ever shown in Napanee. All prices. Quick delivery. M. PIZZARELLI, Market Square.

My ironing used to look like a mountain

IRONING day was my worst day in the week. Bending over the hot stove and scorching my fingers on the irons wore on my nerves, and I would end the day a complete wreck, almost impossible for the family to live with.

THEN I GOT A HYDRO IRON

IRONING now is almost a pleasure. The stove is out and the kitchen is cool, my iron is always just the right heat; I do not have to run back and forth to the blazing fire. Ironing takes much less time than it did.

The Hydro Iron costs \$4.50 and is guaranteed for 5 years. Do you know that it is only 1¼ cents per ironing for all that comfort?

For sale only by

THE HYDRO SHOP

"I was there," I reminded her. "I stood it all right."

Lucile started out as fast as she could for the summer house.

"Wait a minute," I protested, wishing to explain about the reporter.

"Wait," she flashed at me. "when Tooties wants me? Never!"

Lucile broke into a run when she

Now that I was following her and reached the door of the summer house first. When I arrived I heard a scream.

CHAPTER XVII.

Explanations.

THE picture was a title startling. On the door lay the reporter, his face twisted up into an agonized expression, while Tootles stood over him, feebly licking his face, her little red tongue hardly able to reach.

"Oh," Leticie screamed, jumping up and down in her excitement, "he's killing Tootles!"

"I'm afraid I laughed. Anyway, she cast a look of reproach at me and made a dive for the tired little pup. Tootles went through the door and clattered, banging, up the beach. Leticie followed after."

They were too fast for me. The last I saw of them was a tiny bobbing

A black and white illustration of a man and a woman standing in front of a door. The man, on the left, is wearing a light-colored suit with a dark tie and has his hands on his hips. The woman, on the right, is wearing a light-colored dress with a dark collar and a brooch. She is looking towards the man. The door behind them has a small window with a decorative frame.

"What's all the excitement?" the reporter demanded. "Who's the pippin?"

"We had a fire," I returned wearily. "Green's house burned down."

"Everybody asleep, I suppose," the reporter sketched in the story from imagination. "You, the faithful watchman, see the flames, dash into the burning building and rescue the owner's beautiful daughter. It's a peach of a story. It's too bad you can't marry her," he added, cying me ruefully.

"You've got a wife and seven kids, I'm afraid," I returned.

"I have not," I retorted.

"Then you can't marry her."

"Thanks," I thanked.

"I mean you're not so terribly old that you might look all right if you washed your face and had some decent clothes."

"For the first time I realized that I

let me now I'll promise not
have you put in jail, and if you'll
me a picture of Miss Green I'll
you \$5."

"I decided absentmindedly."
"What will you put in me?"
"I don't know. It has been puzzling
You know more about crime than
a. What do you suggest?" I meas-
ured the height of his collar with my
"I can't say it's as much for
selection of collar style."

If professor's going to let me go,"
the student at the young man, whose mind
continued to dwell constantly on him—
"when is breakfast?"

"When, you have ruined all other
perfect day. No one knows when,
or where or what breakfast is."
Is breakfast?" he questioned.

Where, nary breakfast."

"I suggested to tell you a cigar in my—"
He started to tell me a story.

be collected my propensity for
leaving his property.
"It's all right," I assured him. "I'm
smoking at present."
"My left hand upper vest pocket,"
I nibbed.
I found a flat leather case in the
vest but had indicated. I opened the
case and a handful of crumpled toba-
cco fell out.
"I'm afraid I sat on it," I said apolo-
gally.
I turned his face to the wall with
the word. I left him alone with the
remains of his last cigar.
When I had gone a short distance I
noticed that him.
I then I was satisfied that I had done
best I could to rearrange my clad-
ed clothes and linen I rejoined the
smoke group at the site of the
little house. There were only four

FARM BUILDINGS

are one of the clearest signs of the prosperity prevailing in any agricultural district.
 A close observer driving along a country road and watching Buildings, Fences and the state of cultivation, can read the owner's character better than a fortune-teller. An old building like an old coat can be patched, and the old proverb, "A stitch in time" applies to buildings as well as clothes.

YOUR PROSPERITY
 depends on ALL YOUR BUILDINGS being kept in the best possible state of repair so that all their contents will be preserved in first-class condition. A leaky roof, a rotten floor, and a cold pig pen or poultry house is a direct aid to the Kaiser.

No matter what your needs in connection with old or new buildings, or building material, I can help you to solve them.

I can let you have plans, specifications, bills of materials and estimates of cost for Alterations or New Buildings. Call, phone or write.

I will buy dry oak or maple in any thickness.
